---

### Re: Non-Authorized Posting of Signs

**April 05-09, 2012**

Board members of the Kirkwood South Committee frequently spend time cleaning up the street and stop sign poles of various postings placed by the residents of this community despite many appeals to the public for cooperation. Harris County has placed notices on poles throughout the subdivision regarding non-authorized signage under Texas Law Chapter 393 which is a Class C misdemeanor with a maximum fine of \$200.

We are placing all *residents on notice* that all illegal postings on street sign or stop sign poles will be photographed and used by the Harris County legal department for further legal action against the offender. Further, anyone seen tagging or destroying the street signs or poles will be prosecuted. Parents, pass this message to your children. All signage should be affixed to stakes and picked up the same day after the event. Garage sales, lost pet, etc. signage should be posted in the SOUTHBELT LEADER, and not on any pole in the subdivision.

Kirkwood South homeowners in good standing paid for the street signs at a considerable financial cost. Defacing property is of great concern as extra expense will be incurred periodically to clean the poles of adhesive or replace. Of more concern to the Board is the homeowner who placed numerous signs on poles with coat hanger wire leaving the wire protruding for a potential injury.

Let this *Warning* be very clear to the homeowners of Kirkwood South and adjoining subdivisions, this Board will work with Harris County and file against those who disregard written warnings posted by the county and in this article.

This Board is tired of irresponsible citizens defacing property. Offenders are now placed on notice!

Estella Davis, President-Kirkwood South Committee 2012
